Stock in THE CO-OPERATIVE TOWN COMPANY seems now in the way to surpass any investment on the market.

HERE IS HISTORY relating to other town building enterprises: The Elyton Land Company, Birmingham, Ala., was incorporated in 1870 with a cash capital of \$100,000. The capital stock was then fixed at \$200,000. In 1883 a dividend of \$200,000 was decisred; 1884, 95 per cent; 1885, 45 per cent; 1886, 340 per cent; 1887, 2,205 per cent; 1886, 100 per cent, amounting in the aggregate to \$5,570,000 usid in dividends in six years on an investment of \$100,000. The property is now worth probably \$50,000,000. Middlesborough, Ky. in two years became a city of \$,000, its own town company stock appreciated £50 per cent on original cost. Many other examples could be mentioned.

The Young Men's Republican Blaine Club of Cincinnati arrived in the city this forenoon and with it came another blaze of Blaine enthusiasm, the famous Cincinnati band, said to be one of the finest bands in America, accompanying the club, and as ex-Gov. The tremendous seriousness of Mr. Blaine's action in retiring from the cabinet is impressover. Every one recognizes that the situation is one of great danger to the party and that the consequences might be disastrous if any mis-takes were made so that the bitterness of feeling might become more intense and the rup-ture become broader. The Blaine organization here is a composite body. Some of them are earnestly for Blaine and others are for him only because that through him they can beat Mr

Some of Mr. Alger's friends thought, however, that this step was ill advised, and he was telegraphed to diregard that message and remain away. A very close friend of Gen. The Harrison supporters have recovered somewhat from the shock given them by Mr. Blaine's resignation and they are standing up to the fight with remarkable firmness. Dis patches have been received from the White House cautioning them against the abuse of Mr. Blaine which they were indulging in, and since that there has been less show of bitterness on the surface. They claim now to have just a little more than votes enough to nominate and two or three Harrison men confess that they may not have quite a majority at this time.

CLAIMS OF THE BLAINE MEN. The Blaine people claim that Mr. Blaine will have nearly 600 votes on the first ballot. They claim that a gain of 23 was made today.

It is said that Gen. Alger has forty votes in the Harrison camp which will go over to Blaine if by doing so they can insure the to Blaine if by doing so they can insure the Michigan statesman second place on the ticket. A large number of delegates arrived during Sunday and last night, the most important being those from Massachusetts, California, Colorado, Pennsylvania and New York.

It is claimed by the Harrison men that Mr. Blaine's resignation has lost to him some content of the situation which is not particularly gratifying to other dark-horse care. Blaine's resignation has lost to him some votes that he would otherwise have received from Massachusetts and that that delegation is divided, with a majority for Harrison. There has been no doubt anywhere in the country that Colorado was more interested in the silver plank to go in the platform than they were in the nomination or anything else. It seems now, however, that they think more of Blaine than of free coinage, and the understanding is that they will consider a compromise on the coinage question rather than run the risk of injuring Blaine by associating his name with the free coinage movement. This understanding is reached through the earnest endeavor of Senator Wolcott, who is wild with enthusiasm over the prospect of Blaine's nomination.

Carson and Gleeson on the rolls. This recommendation, if approved, would have had the effect of shutting out Wolf and Chase. Wolf, however, appealed to Quay and Clarkson and secured a promise that the action of the subcommittee should be fully considered before its recommendation was adopted.

Mr. Wolf then made the proposition that Carson and Gleeson and Wolf and Chase be given a half vote each when the convention is organized. Pending a decision of the committee on credentials this would place them on equal terms up to time when a decision was reached by credentials committee.

At some of these conferces other Blaine leaders have appeared. These things have provoked hints and sugges-tions that perhaps Mr. Hiscock might not re-main for all time in the Harrison camp, and today this developed into a rumor that Mr. His cock would lend a movement to draw off some of the Harrison delegates to a third candidate with the expectation that the anti-Harrison men with the expectation that the anti-Harrison men would seize the opportunity to join with him and nominate a dark horse. It was said of this that while any movement on the part of the anti-Harrison people to bring out a third can-didate would be very dangerous and might re-sult in the remination of Harrison, yet if the movement started in the Harrison camp they

could join in it and make a nomination of a man not now in the field.

Leading Blaine men in discussing this rumor declared that if Mr. Hiscock or any one else in the Harrison camp attempted to bring out a dark horse they would receive no encouragement or votes from the anti-Harrison people, No one, they said, would desert Mr. Blaine for any one else, as they wanted him nominated
